PROFESSIONAL PROFILE

IT Technician and Web Developer with the ability to integrate infrastructure and software solutions. I possess technical experience in hardware maintenance, networking, and security systems, complemented by a solid command of languages such as Python, Java, JavaScript, HTML, and CSS. My current focus is on developing web applications using React, Tailwind CSS, and Node.js, always striving for efficiency and scalability in every project.

WORK EXPERIENCE

DWeb Developer, Standard Muebles | JAN 2026 - Present

Development and maintenance of the company's official website to enhance its digital presence within the market.

IT Support, Hospital José María Cullen | APR 2025 - JUL 2025

Performed comprehensive technical support tasks, including the implementation of structured cabling across various hospital departments. I carried out preventive equipment maintenance, optimization of Windows and Linux MX operating systems, and the installation and configuration of IP video surveillance systems (HIKVISION).

EDUCATION

Professional and Personal IT Technician, E.E.T.P. N° 480 Manuel Belgrano, 2020 - 2025.

KEY SKILLS

- Frontend: React, Tailwind CSS, HTML5, CSS3.
- Backend & Languages: Node.js, Python, JavaScript, Java.
- Infrastructure: Hardware maintenance, Networking, and Operating Systems (Windows/Linux).
- Security: CCTV installation and configuration (HIKVISION).
- Soft Skills: Teamwork, problem-solving, and continuous improvement.

ADDITIONAL INFORMATION

Participant in the TecnoMate programming competition (high school level), demonstrating problem-solving skills under pressure. Interested in the regional IT sector, having completed technical visits and attended talks at leading companies such as Globant, Crombie, and Folder IT to learn about their work methodologies and organizational culture.
